

Library	One-Word Role	Technical Context
Streamlit	Interface	It turns my Python script into the web dashboard the user sees.
Groq	Inference	It provides the ultra-fast engine that runs Llama-3 AI model.
python-dotenv	Security	It keeps your private API keys hidden and safe from the public.
PyPdf2	Extraction	It "reads" the uploaded PDF and pulls out the raw text for the AI.
Plotly	Visualization	It creates the interactive 0-10 Gauge chart for the risk score.
fpdf2	Reporting	It takes the AI's final advice and builds a professional PDF file.
